FEUD ENDS FATALLY

Tennessee Families Engage In Shooting Affray.

OCCURRED AT SWEETWATER

Tragic Sequel to Feud of Long Standing Between the Pearson and the Collins Families—No Arrests Have, as Yet, Been Made.

Knoxville, Tenn., July 27.—A special to the Sentinel from Sweetwater, Tenn., says:

"A shooting affray, in which one man was fatally injured and three others seriously shot, occurred here Thursday night. It was a sequel to a feud of long standing between the Pearson and the Collins families.

Elijah Pearson was shot through the left arm and in the left breast in the region of the heart. It is feared his injuries will prove fatal.

Ross Pearson was shot in the left leg.

William Collins received a bullet in one arm.

Enoch Collins was only slightly injured, a flesh wound being inflicted by a bullet. It is said the Pearsons obtained alcoholic beverages in the town and after imbibing they met the Collins boys, when trouble ensued.

It is not stated who fired the first shot.

Both sides engaged in the shooting. No arrests have been made.

LOVE TRAGEDY.

Climax to the Battleship Georgia Explosion.

New York, July 27.—Every tragedy is italicized by love, and so is the tragedy of the battleship Georgia.

It was not enough for the blackened bodies to be left prostrate in the air-poisoned turret, but a cruel hand stretched out far up Morningside heights in sweltering New York and fell upon a beautiful and wealthy young girl.

She was coming back from a walk. She was happy. She was thinking of her brave sailor boy in blue uniform and shoulder straps, whose photograph stood upon her mantel. And she smiled as she looked where the great river ran down to the sea, where his great ship was floating.

A newsboy ran by with an extra. The big black letters of its headlines terrified her. With staring eyes she read that Lieutenant Casper Goodrich, of the Georgia, was dead in the explosion. The cruel hand had found its victim, for it was Casper Goodrich's photograph that stood upon the mantel.

The girl was Laura Donaldson, a rich batchelor girl. Blindly she staggered home. But home was nothing. Money was nothing. Music, books, flowers, she forgot them all. But she went and stood by the photograph. She took it up, looked at it, kissed it. Then, placing it where she could see it until all was over, she discharged a revolver into her brain.

Love had italicized one more tragedy.

Will Re-Enter Journalism.

New York, July 27.—Mrs. Rose Harriett P. Stokes, wife of a millionaire, J. G. Phelps-Stokes, has decided to return to the field of journalism. She has signed a contract with the Vorwaerts and in addition to writing an article every week on socialism, she will take charge of a column devoted to advice to girls. Mrs. Stokes, who started life as a cigarmaker, educated herself and went into newspaper work. In this field she met Mr. Stokes, whose ideas agreed with hers in many matters for the betterment of the working people.

Three Tramps Killed.

Kalamazoo, Mich., July 27.—A top heavy oil tank filled with naphtha caused a serious freight train wreck on the Big Four railroad near Eau Claire. Three men stealing rides were killed. The oil car jumped the track in a deep cut.

INDUSTRIAL AFFAIRS.

Notable Development in Southern Railroad Undertakings.

Baltimore, July 27.—A notable development at this time in Southern railroad undertakings is the successful out of financing arrangements that the seven small railroads to be known as the Georgia & Florida railway are to be connected by building about 161 miles of new line.

Referring to this project, which, with the purchase of the roads, the rebuilding of portions of existing lines and the building of new ones, will cost between $5,000,000 and $6,000,000, the Manufacturers' Record in this week's issue says:

"The lines acquired and to be connected are the Augusta & Florida railway, 30 miles; the Millen & Southwestern railroad, 53 miles; the Atlantic & Gulf Short Line railroad, 29 miles, the Ocilla & Valdosta railroad (Hazlehurst division), 39 miles; the Douglas, Augusta & Gulf railway, 57 miles, the Nashville & Sparks railroad, 12 miles, and the Valdosta Southern railway, 28 miles, or a total of 230 miles of completed railroad at present.

The company has also an option on 45 per cent of the stock of the Savannah & Statesboro railway, 33 miles long, running from Cuyler to Statesboro, Ga. This latter may be absorbed by the system, but, leaving it out, the building of the proposed links will give the Georgia & Florida a total of between 330 and 350 miles of railroad from Augusta, Ga., to Madison, Fla., the latter point being about 40 miles from the Gulf of Mexico, whither it is contemplated to build an extension to a suitable port. Other extensions are also contemplated to Savannah, Ga., and a line might be built from Augusta to Columbia, S. C., about 70 miles, making a valuable connection with the Seaboard Air Line.

VERDICT OF NOT GUILTY.

Second of Alleged Lynchers Acquitted in North Carolina.

Charlotte, N. C., July 27.—The efforts of the state of North Carolina to bring to justice the twenty-odd citizens of Anson county, who took J. V. Johnson from Wadesboro jail the night of May 28, 1906, and lynched him, came to an abrupt termination when the jury in the case of Zeke Lewis, the second of the alleged lynchers to be tried, returned a verdict of not guilty.

The jury was out an hour and three-quarters, and when the verdict was announced, Judge Peeples, who has been presiding at Union county superior court, formally discharged it, and stated that he would not go into the trial of another one of the men indicted, there being too much feeling in both Union and Anson counties in favor of the defendants to hope for a conviction. He urged Solicitor Robinson to move for a removal of the other case to some other county. The other eighteen defendants were required to give bonds of $5,000 for their appearance at the January term of Union county court.

Johnson, the victim of the mob's vengeance, was under indictment for the murder of a relative, Guin Johnson, and was awaiting trial at a special term of Anson county court when lynched.

Twenty-three men were indicted for the crime, and three fled the state and have never been apprehended.

Arrest of a Japanese.

Chicago, July 26.—A dispatch to the Tribune from Austin, Tex., says that a Japanese was taken into custody Thursday at the state military encampment. It is charged he was making photographs of batteries in action and other features of the camp. He is being held pending investigation on the part of state and federal military authorities.

Soldier of Fortune Dead.

Philadelphia, Pa., July 27.—Col. Philips Figyelmessy, Hungarian patriot and soldier of fortune and friend of Kossuth, is dead at his home in this city. He served on the staff of General Fremont as inspector general in 1862--65, and for his services to the United States he was made a consul to British Guiana in 1865, remaining in office until 1868.

DISORDERS IN SICILY

Arrest of an Official Has Caused Serious Rioting.

THIRTY PERSONS WOUNDED

At One Place the Rioters Wrecked the Windows in the Palace of a Cardinal—Priests Also Engaged in the General Melee.

Rome, July 27.—The concessions by which ex-Minister of Public instruction Nasi, charged with the embezzlement of $500,000 from the state funds, is allowed to be imprisoned in his own house, has not appeased his sympathizers in Sicily, and the disorders there continue.

There were riots in Messina and Reggio di Calloria.

At the former place the mob cut off the public lights, damaged property and stoned the carbineers. Thirty persons were wounded.

At Reggio the rioters wrecked all the windows in Cardinal Portonova's palace, and when the commander of the carbineers pleaded inability to disperse the mob, owing to the want of reinforcements, the priests and seminaryists hurled bricks and tiles from the roof of buildings on the attackers' heads.

The mob then tried to storm the liberal club, but they were driven off by a furious volley of chairs, tables, bottles and billiard balls.

POINT IN EQUITY LAW.

Man's Picture as Well as His Name Is His Own.

New York, July 27.—That a man's picture as well as his name, is his own and cannot be used without his consent has been laid down as a point in equity law by Vice Chancellor Stevens of New Jersey at Newark. The picture in dispute is that of Thomas A. Edison, the inventor.

A firm making a neuralgia cure was the defendant. Mr. Edison applied for an injunction restraining the concern from using with its product a picture of him accompanied by a fac simile of a recommendation of the article purporting to have been written by him. The vice chancellor granted the injunction.

Mr. Edison contended that he never authorized the use of his picture, never wrote or authorized any recommendation and objected to the use of both.

TRIED TO BLOOW UP HOUSE

Rivalry and Jealousy Among Gamblers of Chicago.

Chicago, July 27.—An attempt to blow up the residence of Mont Tennes, an alleged professional operator of gambling houses, was made by some persons unknown to the police. The miscreant was armed with a steel cased bomb.

Five days ago a similar attempt was made to dynamite the saloon operated by ex-State Senator John F. O'Malley. This case was kept secret.

Both attacks, barren of serious result, were in other respects similar to that made on the residence of "Blind John" Condon, an assistant of Tennes.

The whole details of the incident are said to grow out of jealousy between warring factions of gamblers.

Cashier Makes Assignment.

Nashville, Tenn., July 27.—Green Harris, cashier of the Peoples' National back at Gallatin, which closed its doors last week, who was arrested on Monday, charged with embezzlement, on Wednesday made an assignment to secure the bank in the sum of $6,000 which the books show he owes the bank.

House Passes Rate Bill.

Montgomery, Ala., July 27—The bill to appropriate $50,000 for resisting the fights made by the railroads on the rate and regulation laws of the state has been passed by the house and now goes to the governor. As it is one of his bills, he will sign it at once.

DEFIES UNCLE SAM.

Three Indian Girls Guard Graves of Their Ancestors.

Kansas City, Mo., July 27.—Helena, Ida and Lida Conley, sisters, and Wyandotte Indians, began an armed guard Thursday over the graves of their ancestors in Huron cemetery, in Kansas City, Kans., recently ordered sold by the government, and threaten to shoot the first person who may attempt to remove the bodies.

Congress ordered the sale of the cemetery, set aside for many years as a tribal burying ground, and division of the money among the remaining members of the Wyandotte tribe, first removing the bodies. The three girls say they will not permit the graves to be touched. Miss Helena Conley said:

"From this time on, one of the three Conley sisters will be here in the day time. At night, all three of us shall sleep here and guard.

"In this cemetery are buried one hundred of our ancestors. The blood of the ancient royalty of France flows in my veins. My grandfather owned the whole state of Ohio. Why should we not be proud of our ancestors? We shall do it, and the man tors? We shall protect their graves, and the man that attempts to steal a body will be shot."

"We shall keep right on asking bids on the property," said H. B. Durant, chairman of the government commission, who is trying to sell the cemetery. "The government is behind us."

DEATH FOLLOWS FIGHT.

Young Men at Augusta Have Difficulty at Swimming Pool.

Augusta, Ga., July 27.—Oliver Leroy Rhoades, 18 years old, died on Thursday morning as the result of a blow given him by 17-year-old Taos. Shields, a companion, during a fight which the two had as a result of a boyish dispute at a swimming pond Tuesday morning.

The boys became involved in a row, and during the fight Shields struck Rhoades on the head with the iron wheel of a toy wagon, which was lying near by. Blood gushed from the wound, and when the fight had been settled by young Shields' father, who arrived on the scene about that time, Rhoades was advised to consult a doctor, but, tying a handkerchief about his head, he returned to the water.

When he reached home he was feeling so badly that, after a few hours, he was forced to take to his bed, from which he never rose.

The two families were very intimate, and the boys were fast friends.

IS IT THE HOLY GRAIL?

Glass Vessel of Great Antiquity Has Been Discovered.

London, July 27.—The Express prints a story of the discovery near Glastonbury Abbey of a glass vessel of beautiful workmanship and apparently of great antiquity, which one at least of the discoverers believes is the holy grail of the Arthurian legend.

The holy grail is the cup from which Christ is reported to have drunk at the last supper, and, according to ancient British tradition, it was brought to England by Joseph of Arimathea after the crucifixion.

The vessel is a bluish-brown glass and cunningly inlaid with silver leaf. It is now in the possession of Professor Crookes, who has undertaken to solve its history.

German Military Maneuvers.

Berlin, July 27.—Germany's chief military maneuvers, known as the Kaiser's maneuvers, will take place in Posen in September. They will be notable for exhaustive trials of innovations in war methods. Airships are to be utilized, while bicycles, besides being employed for reconnoitering, will be tested in executing surprise attacks on infantry. They will carry machine guns, partly with a view to ascertaining whether they can be satisfactorily substituted for cavalry. Radiographic [illegible] will be experimented with, while armor-clad towers containing rapid-fire guns on revolving [illegible] will be utilized.

DAMAGE FROM STORM

Augusta, Ga., Is Swept by Severe Wind and Rain.

LIGHTNING'S QUEER PRANKS

One Bolt, Which Set Fire to Cotton Factory, Followed by Another Which Turned on Automatic Sprinkler System, Flooding the Building.

Augusta, Ga., July 27.—The storm which swept over Augusta Thursday night did much damage to property and incalculable damage to the fruit and shade trees. It also played some queer pranks.

One bolt of lightning which entered to the cotton in the card room of the Augusta Cotton factory, was followed by another which turned on the automatic sprinkler system and quickly extinguished the fire by flooding all parts of the building.

Large quantities of manufactured goods were ruined and the damage to machinery will be very heavy.

Telephone, telegraph, electric lighting and street car companies suffered heavily and sewers and drains were greatly damaged by the flood of water released from the automatic sprinklers.

STONED TO DEATH.

Horrible Tragedy Results from Larking in Kentucky.

Harlan, Ky., July 27.—Stoned to death, as if punished by the most cruel execution hundreds of years ago, was the horrible fate that befell Samuel Turner, aged 11 years, son of Justice Samuel Turner, of Wallins Creek, this county.

The lad, with a number of companions, was swimming in Cumberland river and began throwing stones at one another. They became angry and changed from sand to stones.

A crowd of boys, led by Tom Simpson, aged 13, picked on young Turner and began stoning him. When he was washed almost to pieces.

The injured boy was carried home barely breathing, and died shortly after.

The most intense excitement prevailed.

FELL IN CRANK PIT.

Fatal Accident to Engineer of a British Steamer.

Mobile, Ala., July 27.—The British steamer Glencoe, Cassen, came back into Mobile late Thursday afternoon having on board the dead body of A. Allen, second engineer of the vessel, who was killed at sea several hours out from this port.

Allen, in some manner unknown, fell into the crank pit of the steamer and was instantly killed, his skull being fractured. The body was buried at the government reservation at Fort Morgan.

The Glencoe is outward bound for Liverpool, England, with lumber and a general cargo.

Lady Bagot Granted Rights.

London, July 27.—The chancery court has handed down a decree granting Lady Bagot, formerly Miss Lillian Mackubin, of Baltimore, the restoration of her rights as a wife. Lord Bagot was sued on the ground that his allowance of $4,000 to his wife was not sufficient for her maintenance and that of her baby daughter Barbara. He left his wife soon after the christening of this child. It is understood that Lord Bagot before his marriage signed an agreement that all the children born of the union should be brought up in the Roman Catholic faith, but English jurists held that such a contract was not binding.

Battleships Reach Port.

New York, July 27—The three battleships Virginia, Georgia and New Jersey, comprising the second division of the Atlantic fleet, came to port Friday from Newport, R. I. Liberty ballots will be given shore leave during their stay here. The battleships will return to Newport in August to take part in the maneuvers.

... gist of The Sun's story ... that it was Claud and ... it—Claud and Peter, Peter and Claud. Claud was good and Peter was bad. The whole thing is downright laughable, now isn't it? Peter trying to get Claud out of town for a few days so he could run away with the State and Claud standing like a stone wall against the wiles of Peter is as comic as the best of the colored supplements.

The writer of these few lines was more or less observant of matters as they wobbled along during the last session of the legislature and he failed to see any great big chunks of ice cut by either Claud or Peter. It is generally understood, we believe, that Peter's efforts are directed at the prevention of legislation affecting the corporations. The Legislature passed a bill placing a license tax of $10 per mile on the railroads of the State also a bill authorizing the railroad commission to employ a special attorney to enforce its orders; also a bill giving the commission jurisdiction of the physical condition of the railroads; also a bill regulating charges of the express companies in certain cases; also a bill requiring the telegraph companies to promptly deliver the telegrams. This, we think, shows Peter up in rather a bad light as a preventer, and while Claud no doubt felt keenly his responsibility as a "State saver" he also had an appointed for Claud. What he was most particularly interested in than in saving the State was the defeat of the amendment to the State printing and the enactment of an item in the appropriation bill carrying an extra five thousand "plunks" for printing. The one he wanted defeated was passed and the one he wanted passed was defeated. It necessarily follows that if Claud really did a better job at saving himself, he couldn't very well be an important factor in saving the State.

This plain illustration of the impotence in legislative matters should, we think, convince the public that there is no occasion for concern about any controversy that may arise between the two.

If it is true that Peter sent the telegrams in the case he was certainly gunning for small game, and if Claud feared that Peter was about to appropriate the State to his own behoof his fears were not well founded. The State was really in no danger from Peter.

But why pursue the subject? To think of it is to laugh, and then laugh again, at the whole ludicrous mess.—Starke Telegraph.

DELIGHTFUL EVENING AT NORMAL LITERARY

Dr. Yocum's Illustrated Lecture on Pilgrim's Progress.

MISS WALDEN AS IMPERSONATOR

Prof. McBeath, Dr. Russell, Miss Fogg and Others Contribute to the Evening's Entertainment, Which Was One of Most Enjoyable of the Session.

The Normal Literary exercises last Friday night were decidedly the best of the term. The president called the society to order, and the whole audience, led by Dr. Russell and Prof. McBeath, joined in singing a patriotic song, after which the minutes were read, and then the program taken up. The first was a recitation by Miss Joan Walden of White Springs. As an impersonator Miss Walden has few equals. She by her perfect recitation, elicited round and round of applause.

Then followed the newspaper read by Miss Gracie Foss. This paper was not only full of news, but sparkled with some of the keenest wit. It said that an overpowering spirit of loneliness has held one of the Normalites in its sway since the departure of a certain young lady, and the paper affirmed that he was heard to deplore, in song somewhat thusly:

"Be she fleet and she be free
And is I left here all alone
Ah, cruel fate, thou is unkind
To let she go and leave I blind!"

By request Prof. McBeath read a paper on the Life and Work of John Bunyan. Prof. McBeath, always good, was at his best, and his paper should be preserved in print.

The illustrated lecture by Dr. Yocum on Scenes from Pilgrim's Progress was a treat rarely enjoyed. Prof. Floyd managed the stereopticon and for him it behaved beautifully.

But before the paper by Prof. McBeath by special request of the Normal, Dr. Yocum delivered an address replete with sound advice to the boys of long years of experience and observation. He urged the teachers to

save and invest their earnings to lay aside something for the chill winter of old age. Of the earlier duties of pedagogue he dwelt upon the importance of the teacher's presence and urged each teacher to study and work as to reflect credit upon the profession.

The evening entertainment closed with singing by the audience and grand solos, "Nearer My God to Thee" and "Sweet Bye and Bye" thrown upon the screen.

THE NORTH CAROLINA CASE.

The clash between Federal and State courts in North Carolina, in the effort of the latter to compel the Southern Railway Company to comply with the State law prohibiting the charging of more than 2¼ cents per mile for the transportation of passengers, has attracted more widespread attention than anything else during the past six months. Governor Glenn is defying the United States courts and expresses his determination to enforce the law to the letter, the State courts having gone so far as to sentence ticket agents to the chain gang.

The New York Commercial, one of the most conservative papers, comments upon the situation as follows:

"As The Commercial pointed out two days ago, the suit in North Carolina that has led to a conflict between the State and the Federal courts there is very nearly on all fours with the case brought by the Consolidated Gas Company against the State of New York and New York City—the application for an injunction by a Federal court restraining State and municipal officers from enforcing a State law on the ground that its enforcement would confiscate the plaintiff's property; and Judge Pritchard's decision declaring the penalty provision of the two-cents-and-a-quarter-per-mile law for railroad fares to be unconstitutional follows very closely the findings of Judge Lacombe in the local gas case—briefly, that the enormous possibilities in the penalties are in themselves sufficient to invalidate the law, as compelling the Southern Railway Company to obey it, or incur penalties which would mean its financial extinction.

"That this is 'good law' and sound reasoning would appear from the fact that the evidence shows that in one case already tried in Wake county the State court imposed a fine of $30,000 on the railroad company and then notified its agent that, if he would stop selling tickets at a price that was authorized by the decree of the Federal court, the judge would impose only a nominal punishment; but if he did not, the court would not say what it would do until it had received an answer from him. It is possible, declares Judge Pritchard, for this company to be fined five thousand times a day, because it sells that number of tickets daily in its intra-State business, and it could be fined $500 in each instance; thus, by a strict and persistent enforcement of the law, judgments could be obtained against the company for the sum of $2,500,000 for each day—and that would shortly amount to a complete confiscation of its property. On the broader question of Federal authority in the premises, Judge Prichard says:

If the criminal prosecutions against the agents, conductors and employes are permitted to continue, the managers of the railroads cannot successfully operate their trains, carry the mails or continue their usefulness in inter-State commerce.

If the State courts possess the power to indict persons acting under the direction of the Federal court for the performance of a duty enjoined upon them in a suit which may be brought in such court, then the power of the circuit courts of the United States would be completely paralyzed, and such courts would be rendered unable to proceed to the determination of any question involving the validity of the statute of a State legislature.

"Good reasoning, again! And as soon as enforcement of the State law interfered with the mails, President Roosevelt could declare martial law in South Carolina and send a detachment of the United States army to protect the railroad company in its obedience to the mandates of the Federal court—and he would do it, beyond all question.

"If Governor Glenn has not lost his head entirely he will take an orderly appeal to the United States Supreme Court and cease his foolish talk about the high-handed invasion of North Carolina's rights."

ANOTHER RICHMOND IN FIELD.

Jesse R. Grant of New York has adopted a novel course in politics. He is touring the country to discover whether he has any chance of receiving the Democratic nomination for the Presidency. Mr. Grant is little known to the people of the country and thinks it prudent to let them find out something about him before he concludes whether he will ask them to support him or not. He has some strong friends in the Democratic party, and would, no doubt, draw many votes from the old soldier element among the Republicans, if he were nominated. He favors a revision of the tariff and further regulation of corporations. Unlike his illustrious father, Mr. Grant has always voted the Democratic ticket.

FROM THE PAGES OF FLORIDA PAPERS.

A Millionaire Not In It.

Speaking of great riches, the richest man in the world is the man who has a little farm, well tilled, a little wife well willed, a cow and pigs and ducks and chickens and fruits and flowers and music and friends and health and a heart of the right kind. A multi-millionaire simply isn't in it with such a man.—Miami News.

Big-Hearted Albert.

General Gilchrist, the Punta Gorda candidate for Governor, scored largely Tuesday at Tampa, when he announced that he would supplement his former donation to the public school building in Tampa by giving $1,000 for its erection. It was then decided to name the school "Gilchrist Institute," and the cornerstone was laid Tuesday. Better watch that candidate if you are opposed to his nomination. Deeds are worth considerably more than words.—Jacksonville Metropolis.

That Four-Cent Passenger Rate.

In other States in the Union the railroad companies are protesting against two-cent fares and are eager to get back to the three-cent basis, but here in Florida we furnish the antique spectacle of a railroad company, a great trunk line at that, calmly collecting the outrageous tariff of four cents a mile, and nobody doing anything to stop the hold-up. Between Pensacola and River Junction the L. & N. sticks it to every passenger for four cents a mile. The Pensacola Journal pertinently suggests in this connection that the railroad company should be forced either to pay taxes on the valuation which it pleads as a four-cent rate basis, or lower that rate to a figure in keeping with the taxes it does pay. Is there another State in the Union where the four-cent rate is prevailing now?—Live Oak Democrat.

Rev. John B. Culpepper and his son are now "shaking up" Pensacola.

KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. GEORGIA LEGISLATURE.

Prohibition Bill Seems Sure To Be Passed.

Atlanta, July 27.—On Tuesday afternoon, July 30, at 4 o'clock, the vote on the prohibition bill will be taken in the house of representatives, and it is a foregone conclusion that it will be passed.

It is agreed that all debate on this bill shall be between the hours of 9 a. m. and 4 p. m., to be divided equally between the friends and opponents of the measure pending.

It is further agreed that during the pendency of this bill the gallery shall be closed to all visitors.

This kills any further filibuster, in all probability, and signifies that the anti-prohibitionists will fight simply for amendments to the bill, chief of which will be an extension of time for the bill to go into effect, and probably more latitude in the matter of physicians' prescriptions on whisky for medicinal purposes.

Slaton Endorsed.

By a rising vote of 182 to 0 the house of representatives at the capitol on Thursday morning expressed their approbation and appreciation of the work of Speaker Slaton while in the chair on Wednesday, during the celebrated filibuster on the prohibition question, and by this action refuted the charge made that he had been partial to the filibusters.

New Bill by Mr. Hall.

A prohibition bill which provides for the sale of spiritous, vinous and malt liquors in sealed packages, under certain conditions, was introduced in the house on Thursday morning by Mr. Hall, of Bibb. It is introduced as a substitute for the Hardman prohibition bill.

It was offered in the house upon the call for the introduction of new matter and its first reading elicited a great deal of interest, in view of the conclusion of the fight over a more strict bill, which had just been set for a special order for Tuesday. It is the only one of its kind now pending, and its provisions are somewhat different from the usual order.

In the first place, it is provided that it shall not become operative until January 1, 1909.

It is declared that the applicant for a license to sell under the provisions of this act must file application with the commissioner of agriculture, indorsed by two hundred freeholders who want him to have this privilege. The license is to be issued by him upon the payment of $2,000 per annum, and it is agreed that no sale shall be for less than a pint nor more than 3 gallons to the same person on the same day. A bond of $1,500 is required to insure strict compliance with this law.

FARMERS' CONVENTION.

Charles Barrett, of Georgia, Made Fine Address.

Greenwood, S. C., July 27.—The state convention of the Farmers' Union of South Carolina, was called to order Thursday morning by O. P. Goodwin, state president.

Major Baker, of Greenwood, delivered the address of welcome. The morning session was occupied in routine work and the appointment of committees. The credential committee has completed its report and the real business of the convention is to be taken up at once. Warehouses, fertilizers and the immigration questions will receive due consideration. The principal feature of the afternoon session was the magnificent address of Charles S. Barrett, of Georgia, national president of the union.

SHERIFF FOOLED CITIZENS.

Pulled Off Execution of Negro at an Early Hour.

Montgomery, Ala., July 27—Sheriff Belzer fooled the morbid citizens who had sought admission to the hanging of Calvin Coleman, a negro, Friday, by pulling off the execution shortly after 6 o'clock, before more than fifty, specially invited, who had came down town. Before 7 o'clock the body had been sent out.

Coleman died for the murder of J. A. Finley, a white man who was first killed and then whittled into mincemeat with a big knife.

On the scaffold he implicated a white saloon man and another negro, saying the white man killed Finley and he helped to car off the body.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1.00. Sold by W. M. Johnson.

LEFT SWEETHEART $2,500.

Will of O'Shea Brings to Light a Romance of Long Standing.

Boston, July 27.—The will of John D. O'Shea, of Lynn, Mass., past trustee of the Benevolent and Protective Order of Elks, who died in Philadelphia at the national convention, brings to light a romance that has lasted a quarter of a century.

In his will he left $2,500 and his diamond ring to Miss Hattie M. Evans, of Lynn, a stenographer.

Friends say that twenty-five years ago O'Shea paid court to Miss Evans and that the admiration he had for the young woman was returned. When matrimony was proposed serious objections were raised by parents of both the young people, on account of religious differences in the families.

Both the young people continued to live in Lynn, and it was known to intimate friends that it was because of their attachment that neither married.

Mr. O'Shea left an estate valued at $30,000.

BIDS FOR SEWER LATERALS.

Sealed proposals will be received by the Board of Public Works of the City of Gainesville, Florida, on Thursday, August 8th, 1907, at 3 o'clock p. m. at the office of W. W. Hampton, secretary, for constructing approximately six miles of 4-inch sewer house laterals. Specifications may be obtained on application. A certified check in the sum of $500, made payable to Board of Public Works, must accompany each bid, as a guarantee that the bidder will enter into a contract should the work be awarded to him. Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by all druggists.

Columbus Companies Return.

Columbus, Ga., July 27.—Tanned by the rays of an ardent summer sun, and showing every evidence of having lived the outdoor life, the Columbus military companies, the Guards and City Light Guards, returned Wednesday night from their 11-day camp at Tybee, where they formed part of the Fourth regiment battalion. The boys had a fine time, but are not sorrowing over the fact that they are at home again, as the camp discipline was the genuine kind, and they lived the strenuous life of real soldiers.

Your Liver

Is out of order. You go to bed in a bad humor and get up with a bad taste in your mouth. You want something to stimulate your liver. Just try Herbine, the liver regulator. A positive cure for constipation, dyspepsia and all liver complaints. Mrs. F——, Ft. Worth, Texas, writes: "We have used Herbine in my family for years. Words can't express what I think about it. Everybody in my household are happy and well, and we owe it to Herbine." Sold by W. M. Johnson.

Negroes Murder Young Woman.

Williamson, W. Va., July 27.—Rose Mae, a young woman of Huntington, was murdered in Lawrence county, O., opposite here, crossed the river into Ohio and walked down to a river road. She was met with her were two negroes. They followed the young woman. An hour afterwards she was found dead beside the road. Evidently there had been a desperate struggle. The negroes have not been caught.

Bad Burn Quickly Healed.

"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Mytton, 457 John street, Hamilton, Ontario. "My little daughter had a bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by all druggists.

JAMESTOWN EXPOSITION.

The Atlantic Coast Line Offering Some Attractive Rates.

The Jamestown Exposition, like all other expositions when they first open, has not the buildings all completed nor all the exhibits in good shape. This exposition will be kept open and by referring to the advertisement carried in this paper you will note attractive rates and time limits to suit the vacations of anyone.

Realizing and appreciating that one day in the week, namely Tuesday, was the only day on which coach excursion tickets could be purchased, the Atlantic Coast Line has instructed all their ticket agents that the coach excursion rates will be in effect on Friday as well as Tuesday, thus making two days in the week that people who do not feel like going to the extra expense of buying sleeper berths, but want to take a trip off for an outing, can avail themselves of this very reduced rate, which is about one cent a mile for distance traveled or $15.00 for the round trip from Jacksonville, with correspondingly low rates from all other points.

The rate named above is a very low one and is one which a great many people are availing themselves of, taking advantage of the two days fixed for the coach excursion rates, one day at the first of the week and one day at the last of the week.

By consulting your nearest railroad agent he will quote you rates through, not only for the coach excursion, which is particularly referred to in this writing, but any additional limit of tickets.

If you cannot see the agent personally by dropping a card or letter to Frank C. Boylston, district passenger agent of the Atlantic Coast Line at Jacksonville, Florida, you will be furnished with rates direct, to any point desired, and to the exposition with any kind of a limit of ticket.
